

## CUTTING & GRINDING COOLANT FILTRATION SYSTEM

**MEASURE UP TO ENVIRONMENT PROTECTION  
RECYCLING • REPROCESS • REDUCTION • REFILLABLE**

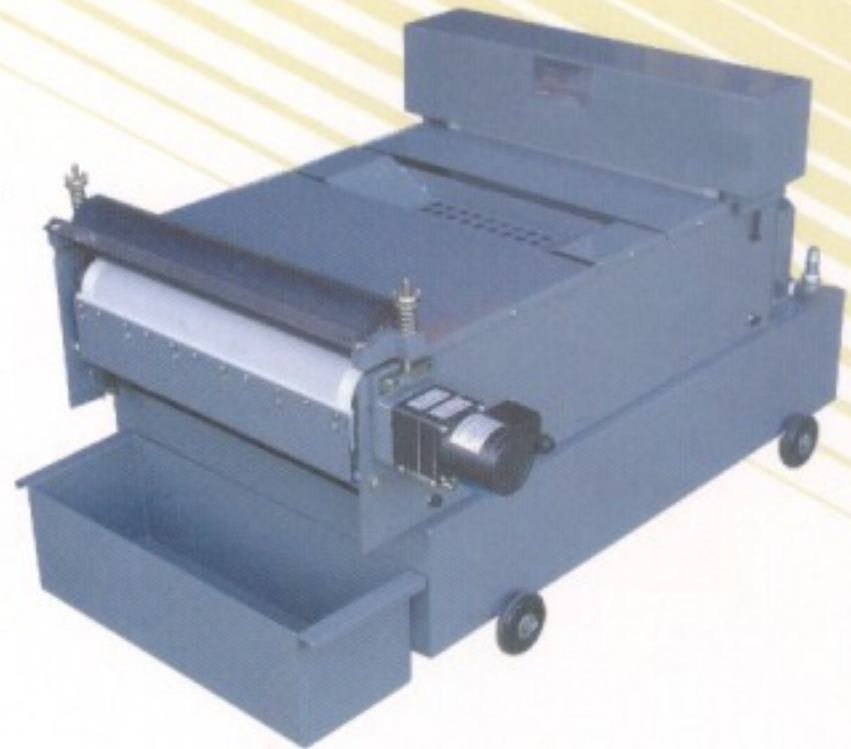

**BF - 40 BELT FILTER**

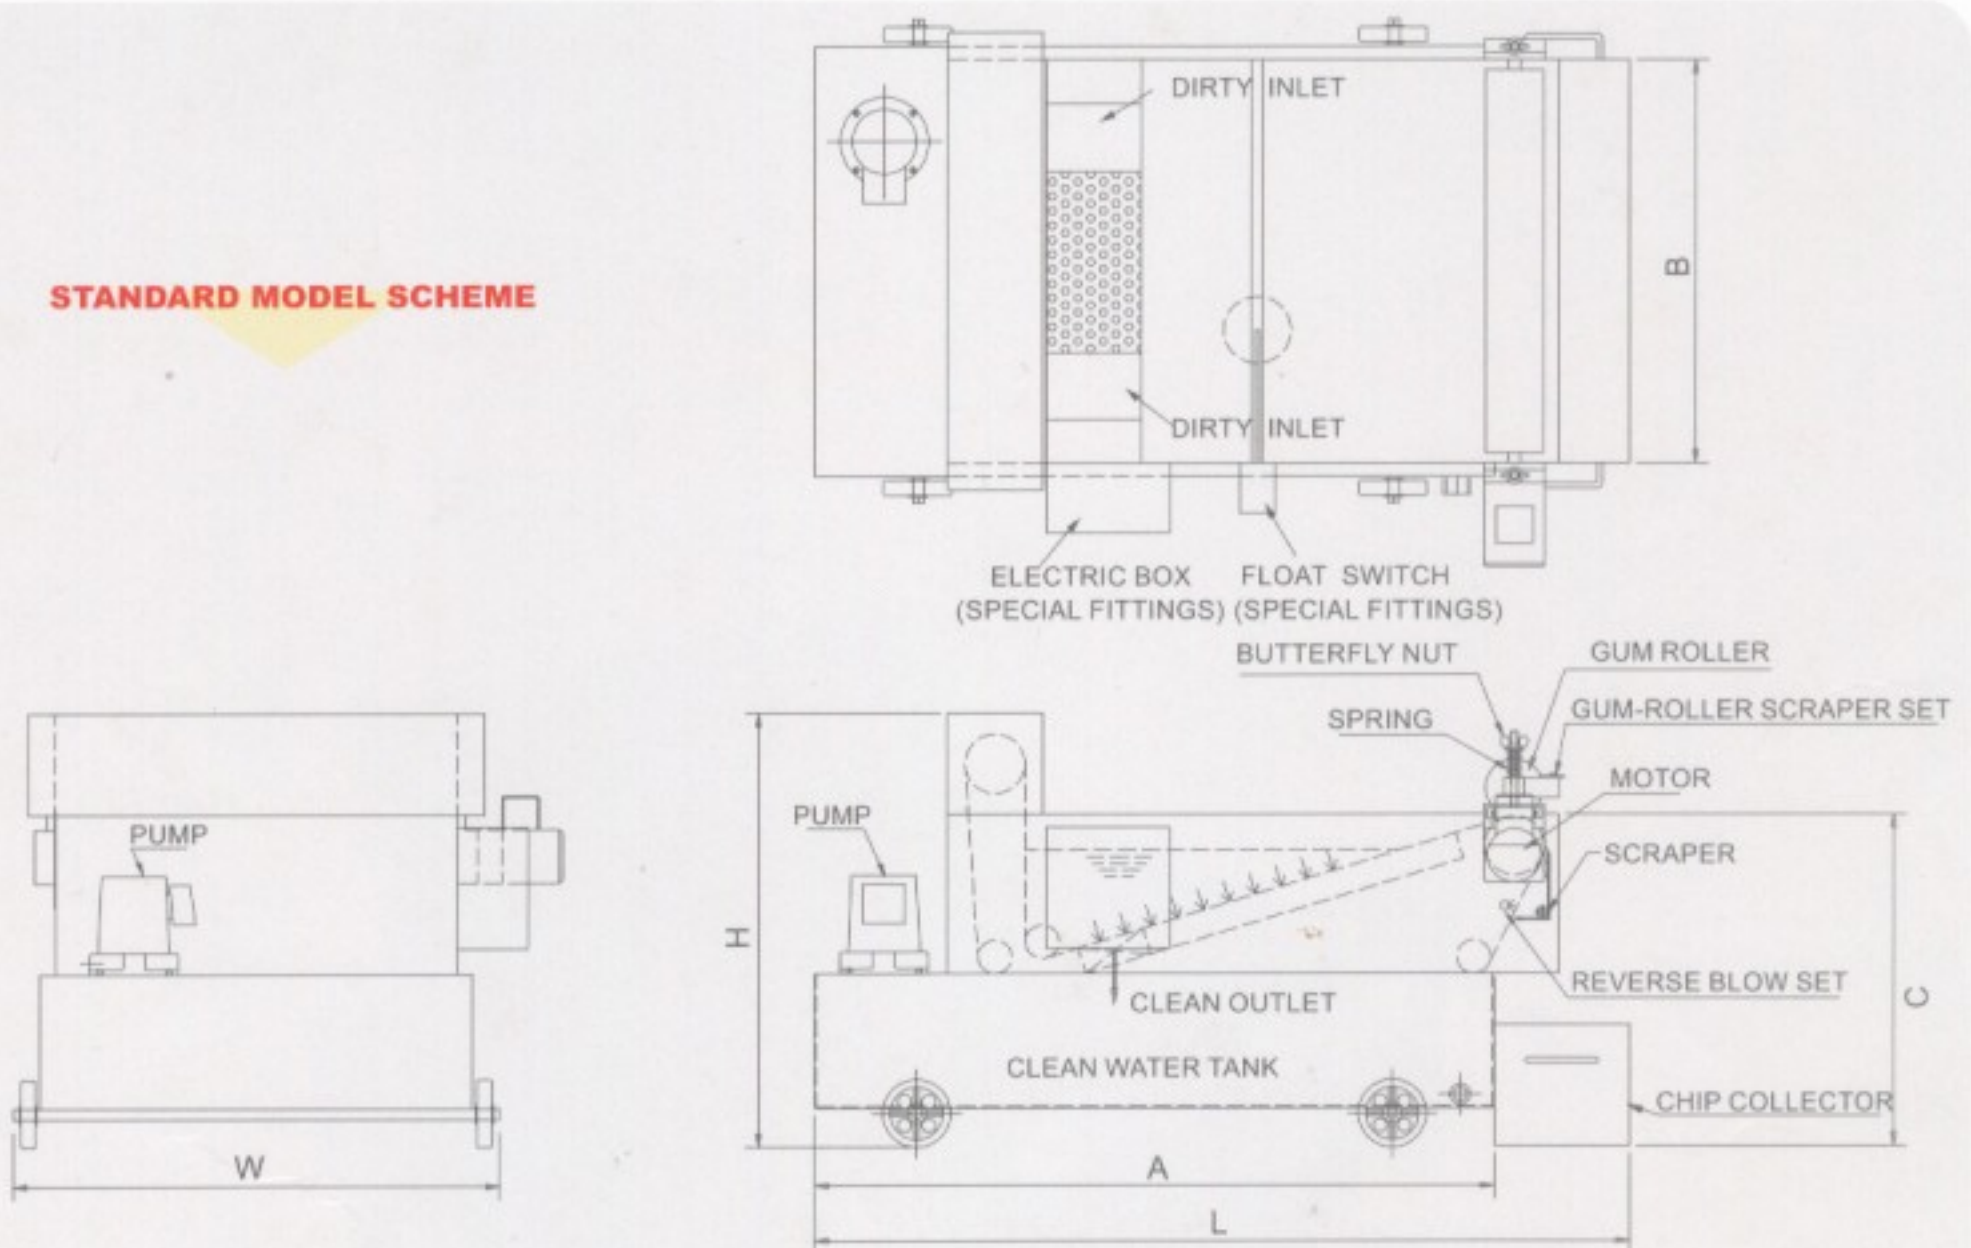

# Features:

1. The Swiss imported Endless Filter Belt for filtering impurities features magnetic; non-magnetic; grinding wheel chips...etc, drains automatically, no consumption in filter paper.
2. The impurities are dried by Gum Roller, and drained into Chip Collector. It is easy to clean impurities in the Chip Collector in which water is not accumulated.
3. Don't need to adhere with Filter Belt when it is in need of exchange. Easy self-replacement of the Filter Belt.
4. Paper Filter flaws: **consumption in filter paper, impurities with lots of liquid, hydrops in Chip Collector, and pollution from throwing filter paper aside are rectified completely.** Measures up to environmental protection, decreases waste, decreases volume, repeat utilization.
5. Fix to reverse blow function. When the fluid volume of Filter Belt is deficient; press air to blow out the congestion, and don't need to take Filter Belt down. There are manual and automatic two types. (option).

## STANDARD MODEL SCHEME

## SPECIFICATIONS

MODEL	WATER TANK CAPACITY (L)	L	A	B	C	W	H	PUMP		MOTOR	BELT WIDTH	REMARKS
								HP	OUTLET			
BF-40	120	1200	1000	600	500	720	650	1/8HP	PF1/2"	25W	500mm	WHEELS ATTACHED
BF-80	160	1500	1300	600	500	720	650	1/4HP	PF3/4"	25W	500mm	
BF-160	260	1800	1600	800	500	920	650	1/2HP	PF3/4"	25W	700mm	
BF-360	640	2150	1950	1060	540	1330	690	1HP	PF1"	40W	1000mm	NO WHEELS
